KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

**Sands Capital Global Growth Fund (the "Fund") a sub fund of Sands Capital Funds Public Limited Company
H US Dollar Accumulating Class (IE00B85KB857)**

Objectives and Investment Policy

The Fund aims to grow the value of the capital invested over the long term.

- The Fund invests mainly in company shares and similar instruments that are traded on regulated stock exchanges worldwide. It typically holds 30-50 stocks at a time whose profits the Fund expects to go up and who the Fund judges to be leaders in their area of business.
- The Fund also considers whether the company's shares are reasonably priced in relation to the market and in the light of the company's business prospects.
- The currency used to measure the Fund's gains or losses is the US dollar.
- The Fund may invest in companies of any size, but will mainly invest in companies with a value of more than US \$2 billion.
- The Fund's performance is measured against the MSCI All Country World Index, which is the Fund's benchmark.
- The Fund may invest in emerging markets up to a limit of 30% of its net assets or three times the percentage share of emerging markets in the MSCI All Country World Index, whichever is greater.
- The Fund does not pay investors a dividend. Instead, income and profits are reinvested.
- Investors may buy or sell shares of the Fund on any weekday other than a public or bank holiday in Ireland or when the New York Stock Exchange is closed, or on such other day or days as the Directors may from time to time determine and notify in advance to Shareholders.

Risk and Reward Profile

The risk category is a measure of how significant the rises and falls in the Fund's return have been historically - it does not measure capital gains or loss and may not be a reliable indication of the Fund's future returns or risk.

- The lowest risk category does not mean "risk free".
- The risk category shown is not a target or guarantee and may shift over time.
- The Fund is in this category because the type of investments that it is permitted to hold, the various risks that the Fund may be exposed to and the typical level of return of the Fund.

The Fund may also be exposed to other significant risks that the risk indicator does not adequately capture. These may include:

- Counterparty risk: a counterparty to a financial contract with the Fund could fail to return money or instruments belonging to the Fund.
- Currency risk: If the share class currency differs from the base currency of the Fund then its value may be affected by exchange rate movements.
- Operational risk: management, business or administration processes, including those to do with the safekeeping of assets, may fail, leading to losses.
- Securities risk: some of the markets or exchanges on which the Fund may invest may go up and down, and value of your investment may not increase.
- Emerging markets risk: securities in emerging markets may involve a higher degree of risk because these markets may be more unstable than developed markets due to social, political, economic, legal and regulatory factors.
- Full details of all risks of Sands Capital Funds Public Limited Company are set out in the Risk Factors section of the Prospectus.

Charges for this Fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest:

Entry charge	None
Exit charge	2.0%

This is the maximum that might be taken out of your money before it is invested, or before the proceeds of your investment are paid out.
