## **CALENDAR YEAR RETURNS (%)**

	2016	2017	2018	2019	2020	2021	2022	2023	2024	YTD
Portfolio (Net)	-2.3	46.5	12.8	41.4	76.0	9.7	-47.9	50.8	37.7	12.9
Benchmark	12.2	41.8	-4.6	38.5	38.3	22.4	-32.3	47.7	31.6	10.4
Value Added (%)	-14.5	4.7	17.4	2.9	37.8	-12.6	-15.6	3.2	6.1	2.6

Inception date is 12/31/2010. Returns over one year are annualized. The investment results shown are net of advisory fees and expenses and reflect the reinvestment of dividends and any other earnings. The investment results are those of the Technology Innovators Composite. Net of fee performance was calculated by reducing Technology Innovator Composite's monthly gross return by 1/12 of the highest applicable annual fee of 0.85%. Past performance is not indicative of future results. <u>GIPS Reports found here</u>.

All values are those of the Technology Innovators Composite. The companies identified above represent a subset of current holdings in the Technology Innovators portfolio and were selected based on the performance measures presented. With the exception of IPOs where actual transacted prices are used, contributions are calculated in FactSet Portfolio Analysis using FactSet end of day prices, and on ot reflect actual purchase prices. This can affect the presentation of contribution and performance of transactions amid heightened volatility. Security return and contribution are net of advisory fees and expenses and reflect the reinvestment of dividends and any other earnings. Attribution generated returns will not match actual performance because FactSet uses different exchange rate sources, the performance does not capture intra-day trading, and the analysis removes the impact of cash flows. Relative Return calculations do not incorporate risk or volatility impacts and should not be exclusively relied upon. To receive a description of the calculation methodology for the attribution analysis and a complete list detailing each holding's attribution please contact a member of the Client Relations Team at 703-562-4000. <u>GIFS Reports found here</u>. Past performance is not indicative of future results.

Differences in account size, timing of transactions and market conditions prevailing at the time of investment may lead to different results, and clients may lose money. A company's fundamentals or earnings growth is no guarantee that its share price will increase. Forward earnings projections are not predictors of stock price or investment performance, and do not represent past performance. Characteristics, sector (and regional, country, and industry where applicable) exposure and holdings information are subject to change and should not be considered as recommendations. The specific securities identified and described do not represent all of the securities purchased, sold, or recommended for advisory clients. There is no assurance that any securities discussed will remain in the portfolio or that securities sold have not been repurchased. You should not assume that any investment is or will be profitable. Source: Benchmark data sourced from Benchmark providers. Company domicile, sector, industry, regional, and country classifications, where applicable, are sourced from MSCI. Other data sourced from FactSet.

Carbon Emissions are calculated as Scope 1 & Scope 2 carbon emissions per \$1 million invested. Portfolio and Benchmark Carbon Intensity is defined as the portfolio or benchmark carbon emissions per \$1 million of portfolio or benchmark sales. At a business level, carbon intensity is calculated as carbon emissions per unit of sales (tons/\$1 million sales). Weighted averages are computed as the sum product of the portfolio or benchmark companies' respective carbon values and portfolio or benchmark companies' weights.

All investments are subject to market risk, including the possible loss of principal. Recent tariff announcements may add to this risk, creating additional economic uncertainty and potentially affecting the value of certain investments. Tariffs can impact various sectors differently, leading to changes in market dynamics and investment performance. The strategy is concentrated in a limited number of holdings. As a result, poor performance by a single large holding of the strategy would adversely affect its performance more than if the strategy were invested in a larger number of companies. Due to its concentration in specific industries, the strategy's return could be more volatile than that of a strategy with a broader mandate. The strategy is also subject to large investor risk, whereby a large investor may impact Sands Capital's investment strategy by purchasing or selling interests in large amounts. International investments can be riskier than US investments due to the adverse effects of currency exchange rates, differences in market structure and liquidity, as well as specific country, regional and economic developments. Additional risks that may impact the strategy include division is specific round.

Disclosures and definitions

Notice for non-US Investors

Sands Capital is an active, long-term investor in leading innovative growth businesses, globally. Our approach combines analytical rigor and creative thinking to identify high-quality growth businesses that are creating the future. Through an integrated investment platform spanning venture capital, growth equity and public equity, we provide growth capital solutions to institutions and fund sponsors in more than 40 countries. Sands Capital is an independent, staff-owned firm founded in 1992 with offices in the Washington, D.C. area, London, and Singapore.

#### **ALL-IN CULTURE**

We are one team dedicated to one mission and one philosophy. As a fully independent and staff-owned firm, we attract and retain strong talent, focus on long-term outcomes, and are highly aligned with our clients' interests.

## GLOBAL PERSPECTIVE WITH LOCAL UNDERSTANDING

Innovation-driven growth knows no geographic boundaries. Neither does our research team. We are hands on, on-the-ground, deeply immersed in the ecosystems in which our businesses operate.

#### **INSIGHT DRIVEN**

Businesses that can build a sustainable advantage are few and far between. To seek them, we apply six criteria to separate signal from noise, identify what matters most, and construct differentiated views on tomorrow's businesses, today.

# HIGH CONVICTION FOR HIGH IMPACT

All our strategies concentrate investments in only our best ideas and avoid mediocrity. With the intent to own businesses for five years or longer, we seek to create value for clients through the compounding of business growth over time.
